PARADISE VALLEY SILVER TROWEL MASONIC LODGE NO. 29, F. & A.M., PHOENIX, AZ Volume XVII #2 Feb 2017

TRUTH

submitted for Dave McArdle, WM

It is an odd fact that Freemasonry's direct teaching in regard to Truth is less important than her indirect teaching.

In the entered Apprentice's Lecture we learn of Truth as "the foundation of every virtue. To be good Men and True is the first lesson." etc. But these teachings regarding the third Principal Tenet are of Truth in its narrower and more restricted sense - that use of the

word as a synonym for sincerity, right dealing, absence of deceit, straight forwardness. Philosophers distinguish several verities of Truth - logical truth, the conformity of reasoning to premises; ontological, metaphysical or transcendental truth - the doctrine that the existence of Deity is proved by the very idea of his existence; absolute truth - the reality behind the appearance or idea.

These conceptions of Truth have led to the more common use of the word, as that which is believed to be so, as distinct from that which is known to be opposite of the fact. The witness who swears to tell the truth, the whole truth, and nothing but the truth indicates no more than his intention to state that which is known to him, believed by him; that he will not intentionally deceive. A witness may testify to something which is not a fact and be un-perjured, provided it is a fact to "him." A man, ignorant of astronomy may truthfully testify that the sun moves from east to west between morning and night. His testimony is the truth as he knows it. That actually the earth moves beneath the sun, while the sun stands still, does not make him untruthful.

The truth is not always easy to define. Some questions have several answers, all correct. Other questions cannot be answered, "as asked," correctly. For instance, "how many feet in a mile?" has only one true answer: 5,280. But "what two whole numbers added together make 5,280" has 2640, answers, "all" correct! "What are the "only" two numbers, added together, that result in 5,280" cannot be answered correctly, "in the terms in which it is asked," because there are not "only two" numbers, the addition of which so result. In mathematics are many conceptions which have no actual truth behind them. By the very laws of mathematics, we cannot imagine a square root of "minus one." A root, multiplied by itself, must give the number of which it is a root. No number, plus or minus, multiplied by itself produces a minus quantity. Yet this very conception of the square root of minus one is constantly in use in mathematics, though it has no objective existence and no mathematical answer.

The entered Apprentice Lecture teaches of truth as opposed to deceit, truth as a foundation of character, truth in the moral sense. In this sense Truth really is the foundation of every virtue. There is no justice without truth; there is no philanthropy without truth; there can be no self-sacrifice, no bravery, no rectitude - no virtue of any kind - without a foundation in that which is sincere and honest, as opposed to that which is lying and deceitful.

Candidate Progress: Help a Brother Out?

submitted by Sr. Warden Brian L. Colkitt

Hello Brethren,
Let me start this month with a report on our candidates.

On Wednesday, January 11th, candidate Ren Ramsey received the First Degree of Masonry. Please be sure to congratulate him then next time your in lodge.

Then, Wednesday, January 18th, Brother Daniel James Lewis was raised to the sublime degree of Master Mason. Thank you for coming out and showing your support for Brother Daniel.

Our other EAs are busy studying for there proficiency. This brings me to a my subject. We need Mentors for our Brothers that are going through the degrees. WB Ray Najjar and WB Mustafa Karamujic have been diligently working with our EAs to get them through, but two people is not enough. Being a mentor is one of the most fundamental and rewarding ways to be active in the lodge. Some of my most fond memories of Masonry are the precious moments I spent studying with WB David Cassaday. Even with everything he was going through in his life he always made time for me and my studies. Now that he's gone I will cherish those times forever. So come on and make some memories for our new Brethren and be a Mentor.

Anyone who is interested just contact me and I will put you in touch with a brother in need.

Take care Brethren and be good to each other.

Best Regards,
Brian Colkitt

**Trowel-Talk #71** by Brother Tom Lyle, PVST29**Question Is Masonry A Gap Filler For Humanity?**

My brothers, a very valuable and truly informative book in my personal library states on the front cover, as a subtitle, "Everything you need to know to get by in the 21st Century." Yes it would be nice to understand what they meant by the phrase "get by". But whatever they meant, there was one major concept missing, which someone evidently thought unnecessary to "get by" in the 21st C.

The Chapter headings and descriptions do not indicate brotherly love as necessary to "get by", nor do they mention harmony, fraternity, kindness or caring. To be fair, it does mention love as a primary theme of the Sermon on the Mount, as it may have in other articles in the book. The point is it was not in the chapter headings or subheadings in the table of contents, but rather it was burried deep within the article. Looking closer, there is no mention of love in the index, which usually picks important words in the book and gives their page numbers for easy reference.

Shocking?

Perhaps it is just a sign of our times, an indication of the average level of consciousness in which Humanity dwells in the present. Now some may say that it is not missing if the book-maker(s) didn't think it was necessary to "get by". It is only missing from the reader's prespective (level of consciousness). Surely this is true (all things are relative). Yet being relative does not mean that from a Mason's point of view it is not entirely disappointing in our hope for a better world: in short, an elevation in the average level of consciousness of Mankind.

Is this where Freemasonry, and all other groups in the Hierarchy of Light, fill in the void of knowledge about brotherly love and its applications? We find good men and nourish them with the know how to become better men. From the beginning we are presented with the C.G., as a most powerful tool to clean up our act (to become better men). At the same time we are given the way to measure our day, which increases our knowledge and practice of prudence as well as charity. Hopefully, as we dilligently work on ourselves, we will have enough beneficial influence on others so that in the next book for the 22nd C. there will be prudently included an illuminating chapter on brotherly love. (At least room for it in the index) :-)
